PROFESSIONAL SUMMARY

Frontend Developer with 4+ years of experience building enterprise and government-scale web applications in banking, healthcare, and ERP domains. Led a frontend team at Uzbekistan's national IT operator, delivering five production healthcare platforms and the shared component library behind them. Strong in React, TypeScript, and Next.js, with production React Native apps published on the App Store and Google Play. Comfortable owning frontend architecture, API contracts, and design-system decisions end to end.

TECHNICAL SKILLS

Core: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3

Mobile: React Native, Expo

State Management: Redux Toolkit, Zustand, TanStack Query, Context API

Styling: Tailwind CSS, SCSS/Sass, CSS Modules, Bootstrap

UI Libraries: Material UI, Ant Design, Chakra UI

Also worked with: Vue.js, Svelte.js

Engineering: REST API integration, design systems, component libraries, micro-frontends, role-based access control, code splitting, project boilerplates, CI/CD, Git

Collaboration: Agile/Scrum, Figma design handoff, code review, technical interviewing, mentoring

PROFESSIONAL EXPERIENCE

Frontend Developer — Agrobank ATB (Full-time)

Feb 2026 – Present · Tashkent, Uzbekistan · One of Uzbekistan's largest banks (170+ branches, 4,000+ employees)

- Develop two internal enterprise systems used bank-wide: a back-office CRM and an employee audit & monitoring platform.
- Design and implement a micro-frontend architecture so independent modules can be developed and deployed without redeploying the host shell.
- Build a role-based access control layer governing feature and route access across user roles and branch hierarchies.
- Own frontend architecture decisions and define REST API contracts jointly with backend teams for high-volume administrative workflows.

Frontend Team Lead — UZINFOCOM (Yagona Integrator) (Full-time)

May 2025 – Feb 2026 · Tashkent, Uzbekistan · State IT operator, 1,000+ employees

- Led the frontend team on a nationwide healthcare digitisation programme, replacing paper-based hospital, laboratory and check-up workflows.
- Delivered 5 production platforms: MedCard (patient records), LIS (laboratory information system), Conclusions (medical reports), YKEM (epidemiology), and the GP Portal (national family-doctor portal).
- Architected and built "Med UI Kit" — the shared component library and project boilerplate used as the foundation of every platform above, cutting setup time for each new module.
- Conducted technical interviews and participated in hiring frontend developers for the team.
- Ran code reviews, set frontend conventions, and coordinated delivery with backend, design and product stakeholders.

Frontend Mentor — Najot Ta'lim (Part-time)

Aug 2024 – Present · Tashkent, Uzbekistan

- Teach frontend development (HTML, CSS, JavaScript, React, Next.js) to 40+ students, from fundamentals to production-ready projects.
- Over 75% of mentored students have been placed into developer roles.
- Run code reviews on student projects and design lesson plans adapted to individual learning pace.

Frontend & Mobile Developer — BIS PRO (Contract)

Nov 2024 – Jul 2025 · Tashkent, Uzbekistan

- Built web and mobile applications automating warehouse and production operations for manufacturing businesses.
- Developed custom ERP modules for inventory, finance, procurement, and production workflows using React.js and React Native.
- Replaced manual, spreadsheet-driven processes with structured real-time systems integrated into existing internal platforms.

Frontend Developer — Tecler LLC (Full-time)

May 2022 – May 2023 · Tashkent, Uzbekistan

- Developed business-facing applications with Svelte.js and Fluent Svelte.
- Among the first at the company to adopt new technologies, then documented and supported teammates in using them.
- Maintained and improved existing products across the release cycle.

SELECTED PROJECTS & CONTRACT WORK

Matchit — Social dating app (iOS & Android) · React Native, Expo

2024

Published on the App Store and Google Play. Built the matching engine, user profiles, and real-time chat.

Workify — Asaxiy.uz | PM · Team Lead · Frontend Developer · React, Next.js

Feb 2025 – May 2025 · Contract

Internal HR and employee-monitoring admin panel. Managed the team, translated business requirements into technical specifications, and built the frontend.

Krupasnab | IT Consultant · Frontend Developer · React, Next.js

Jun 2025 – Sep 2025 · Contract

Three-month engagement with Uzbekistan's leading grain distributor. Established the internal IT function — infrastructure, processes and tooling — alongside frontend delivery.

Vitazone — E-commerce platform · React, Next.js

2025

Health-products store with payment gateway and postal delivery integrations for end-to-end order fulfilment.

Orimedia — Online library platform · React, Next.js

2025

In-browser reading, audiobook playback, and title purchasing in a single content-delivery experience.

Mobile & Frontend Developer — Softwhere.uz · React, React Native

Feb 2024 – Jul 2024

Maintained and extended existing web and mobile products; navigated large legacy codebases within established project structures.

Frontend Mentor — Mars IT School · HTML, CSS, JavaScript

Jan 2023 – Jun 2024 · Part-time

Ran workshops and one-on-one sessions introducing newcomers to programming and frontend development.

EDUCATION

B.Sc. in Computer Engineering — Tashkent University of Information Technologies (TUIT)

2020 – 2025 · Tashkent, Uzbekistan · Engineer-programmer

Frontend Development (React Developer) — PDP Academy

2021 – 2022 · Tashkent, Uzbekistan

CERTIFICATIONS

- Advanced React.js — Coursera
- React.js — HackerRank Certification
- Frontend Development — Udemy
